

IODP PROCEEDINGS LIST OF OPEN COMPOUNDS

To avoid frequent and unnecessary hyphenation of unambiguous science and engineering terms used in the IODP *Proceedings*, the following words will be treated as open compounds in both the noun and adjectival forms:

A

acoustic impedance
air fall
air gun
ash fall

B

barrel sheet
bulk density
bottom water

C

color reflectance
compressional wave
contact probe
core catcher

D

debris flow
drill collar
drill floor
drill pipe
drill string
drilling fluid
dry bulk

E

echo sounder
end cap
end point

F

fluid flow

G

gamma ray
gas hydrate
geomagnetic field
geomagnetic reversal
greenhouse gas
ground water
guide horn

H

hard rock
hanging wall
hand specimen
headspace gas
heat flow
heat flux

I

ice sheet
inorganic carbon
insertion probe
interstitial water
island arc

M

magnetic anomaly
magnetic field
magnetic polarity
magnetic reversal
magnetic susceptibility
major element
minor element
mud clast

N

needle probe

O

ocean water
organic carbon
organic matter

P

physical properties
plate tectonic
pore fluid
pore water
port call

R

rare earth element
reef front
rig floor

S

sea level
sediment accumulation
seismic reflection
seismic stratigraphic
seismic wave
shear wave
shear zone
site survey
smear slide
sonic velocity
source rock
squeeze cake
stainless steel
sulfate reduction
surface water

T

terrigenous matter
thin section
tool string
top drive
total inorganic carbon
trace element
triple combination (triple
 combo)

W

wall rock
water column
water depth
water table
wet bulk7
